MONDAY.....FEB 11, 1907.

There's a good time waiting for
every visitor to Hawaii this year.

A municipality without authority
to issue bonds, levy and collect taxes
may be a municipality in name, but
nothing else.

The fact that a cloudburst took off
a corner of the dam core wall means
nothing more serious than a little
more expense.

When Canada bars papers with the
Thaw trial from the mails, it will
furnish the opportunity for wider
advertising of special newspaper
trains.

Mayor Schmitz is probably think-
ing all the time on how he can weave
diplomacy and Japanese school chil-
dren into a scheme to call off the
dogs in the graft prosecution.

Never allow the enthusiasm for a
Congressional delegation to buy a
trip to Hawaii will be so mutually
beneficial that the higher level with
no other argument than a lie.

Any Maui citizen who wants to
know why the police force is so sud-
denly increased might turn to the
election returns. If unable to find
cause in the Police Court records.

According to Howland's figures,
further extension of the water works
to meet the needs of a growing city
will lay the Territory or the County
hopelessly in debt. Between bonded
debt and depreciation there is no way
out. A most extraordinary showing.

HOWLAND'S WATER WORKS FIGURES.

The statement of Superintendent
J. H. Howland on the Honolulu wa-
ter works is a valuable addition to
the business literature of the Terri-
tory.

If this brief resume of the financial
condition of the water works is a cor-
rect interpretation, it shows that this
department of the Territory is being
conducted at a loss which will steady-
ly increase as the years go by, and
the water system is extended.

This is unexpected and surprising
Not long ago some official of our is-
land government made the remark
that the Honolulu water works was
the only money-making institution of
the government. Either he was not
fully informed or there has been a
great transformation in the conduct
of the department in recent years.

It is possible to do most anything
with figures, and the impression pre-
vails that the Territorial officers are
not anxious to release their hold on
the water works; hence the demon-
stration of a loss, which will suppo-
sedly scare the County off.

To refute this idea, it is announ-
ced that when Howland was requested
to furnish the figures for the Hono-
lulu system he was solemnly warned
against giving a statement other than
a plain unvarnished representation of

the iron-bound and copper-fastened
truth.
Accepting Mr. Howland's figures
at their face value, there can be no
difference of opinion that the Hono-
lulu water works system needs special
attention. If the Territory had
conducted the system all these years
and in such a manner as to assure a
loss, it is about time steps were taken
to put the system on a paying basis.

It is about time the County took
charge of the works and conducted
them on a business basis, with a
guarantee of at least enough profit
to provide a sinking fund for the pay-
ment of loan funds invested.

We believe it would be a very easy
matter to organize a private corpora-
tion to take over the Honolulu water
works at an appraised value of one
million dollars, and guarantee to
make all extensions as demanded. A
water supply system properly con-
ducted is a gold mine. That is why
it should be carried on by a govern-
ment that will secure the profit for
the people.

According to the statement made
by Howland there has been compara-
tively no thought of business man-
agement in the Honolulu system as
carried on by the Territory.

It would be next to impossible for
the County to do worse. If turned
over to the County the system would
be carried on so that it would at
least pay for itself.

LEGISLATIVE WORKERS.

A minority, earnest and enthusiastic,
but still a minority, of the Re-
publican members of the Legislature
for the Island of Oahu has attended
the meetings of the Territorial Com-
mittee for the discussion of party
measures.

It would be interesting to learn the
cause for the apparently studied non-
attendance of Oahu legislators.

If the work now being done by cer-
tain members of the Legislature co-
operating with members of the Re-
publican committee is to be merely a
ground-work for other Republican
members to hammer when they are
once seated in their places in the
Legislature, a good share of it goes
for naught.

Are the absent members refraining
from co-operation in order that they
may spring their independent
plans on the Legislature?

Do they object to a conference on
purely party measures in order to
hasten the work of the Legislature?

Or are they simply letting others
do the work while they in the true
spirit of statesmanship do the heavy
looking on?

The efforts made to get the party
measures cleared up and out of the
way cannot amount to much of real
value unless it has a spirit and prac-
tice of honest party unity behind it.

BAND CONCERT

A public band concert will be given
this evening at 7:30, at Emma Square.
The following program to be played:

PART I.
March—"Pineapple".....Kunoth
Overture—"Jolly Students".....Suppe
Waltz—"Laura".....Millocker
Selection—"Pineapple" by request.....Sullivan
PART II.
Vocal—Hawaiian Songs, as by Berger
Selection—"Rumors of the South".....Afford
Intermezzo—"Porto Ricu".....Mussel
Pine—"Kawika".....Busby
The Star Spangled Banner.....
The band will not play tomorrow
(Tuesday), at Thomas Square on ac-
count of too much Chinese New Year's
work.

MANAGER FOR HALAWA

Kohala, Hawaii, Feb. 6.—J. Whyte
Atkins has been appointed manager
of Halawa plantation in the District
of Kohala, to succeed T. S. Kay, who
is leaving to take up a position in
Honolulu.

The weather at Kohala has taken a
change for the better within the last
week, the rain having ceased and the
roads are once more getting dried out.

The young men of Kohala are very
busy just now thinking up original
valentines for Feb. 14th. It seems to
be quite a job for some of them.

ANNUAL MEETINGS

The annual meetings of the follow-
ing companies will be held at the office
of Castle & Cooke, Ltd., on the stated
dates:

Kona Plantation Co., Wednesday, Feb.
27 at 10:30 a. m.
Apakoa Sugar Co., Ltd., Wednesday,
Feb. 27 at 1:30 p. m.
Kohala Sugar Co., Tuesday, Feb. 26,
9:30 a. m.
The Waimea Sugar Mill Co., Thurs-
day, Feb. 28, at 2 p. m.
Waialua Agricultural Co., Ltd.,
Thursday, Feb. 28, at 10 a. m.
Waialua Water Co., Ltd., Thurs-
day, Feb. 28, at 11 a. m.

PROBATE MATTERS

In the matter of the estate of the late
Judge Henry E. Highton, Judge Lind-
say this morning granted letters of ad-
ministration to H. T. Mills. Bond was
fixed at \$250.

Letters of administration were
ordered to issue by Judge Lindsay this
morning to John T. Nui in the matter
of the estate of Mary T. Nui.

David Dayton was this morning ap-
pointed administrator of the estate of
Agatha Nott, deceased. His bond was
placed at \$200.

The final account of Father Valen-
tin, executor of the estate of Catherine
Stewart, was this morning referred by
Judge Lindsay to John MacCallisto as
Master for examination and report.

SUSPICIOUS DEATH ON STEAMER CHINA

Ship Is Held While An Autopsy Is Held By Doctors

The steamer China arrived this
morning and was placed in quaran-
tine by the local officials of the Ma-
rine Hospital Service, while the body
of a Chinaman who died on the voy-
age is being examined. The China
on this account, will not sail till to-
morrow morning. The rules of the
Pacific Mail forbidding her leaving
the port after dark.

The dead man was an old fellow
who was returning to San Francisco,
where he had lived for many years.
He left the Pacific Coast after the
San Francisco earthquake and was
returning to start work all over
again after a trip to his home. He
died yesterday and, according to the
China's doctor, his death was from
natural causes and cannot be attrib-
uted to smallpox, plague or any other
contagious disease. The local
quarantine doctors, however, will
not take any chances, and the body
was taken ashore in one of the Chi-
na's boats, which was towed in by
the quarantine launch Oahu.

An autopsy is now being perform-
ed and if the cause of death is found
to have been from natural causes and
not from a contagious disease, the
China will be allowed to come in at
once. Otherwise she will be taken to
the quarantine dock for fumigation
before her passengers can be landed.

The China has the smallest list of
first-class passengers that she has
ever carried. There are only five in
the first cabin. The last trip she
made from the Orient she had only
13, which was the smallest number
up to that time. She has a full car-
go of freight for San Francisco on
board, however, though there are
only five tons for this city.

She brings 527 Japanese for this
city in her steerage and has a total
of 599 passengers aboard. She will
take away in the neighborhood of
250 Japanese for San Francisco and
will sail some time tomorrow.

The Weekly Edition of the Evening
Bulletin gives a complete summary of
the news of the day. For \$1 a year.

WILL NOT LOOK UP A BUILDING SITE

Ex-Assistant Secretary Of Treasury Comes On The Korea

Mr. and Mrs. H. A. Taylor were
among the prominent people on
board the Korea. Mr. Taylor was
formerly connected with the Treas-
ury Department as Assistant Secre-
tary and rumor had it that he was to
come here to investigate a site for
the Federal building. A mistake was
made in this, as Mr. Taylor is no longer
connected with the Treasury De-
partment and is on his way around
the world, accompanied by his wife.
They will stop over for a week or
more in this city.

As Mr. Taylor and his wife were
stepping off the boat, the gentleman
from Washington was asked for an
interview and stated that he was un-
able to give it at present, as he was
going out to the Moana Hotel to
lunch with Acting Collector of Cus-
toms Stackable. He was asked if he
was here to investigate the Federal
building site, and both he and his
wife hurriedly denied it. Mr. Taylor
appears to be a man of over middle
age, though very well preserved and
active. His eyes have a bright flash
which is unusual in a man of his ap-
parent age. Mrs. Taylor is younger
than her husband in a very bright
and pretty woman.

MOTION DENIED

Judge De Bolt denied the motion of
D. L. Withington, attorney for the de-
fense in the damage suit against the
Rapid Transit Company, for a directed
verdict in favor of the defendant. The
attorneys then proceeded with their
arguments before the jury. A verdict
in the case may be returned today.

MOTHERHOOD

The first requisite of a good
mother is good health, and the ex-
perience of maternity should not be
approached without careful physical
preparation, as a woman who is in
good physical condition transmits to
her children the blessings of a good
constitution.

Preparation for healthy mater-
nity is accomplished by Lydia E.
Pinkham's Vegetable Compound,
which is made from native roots and
herbs, more successfully than by any
other medicine because it gives tone
and strength to the entire feminine
organism, curing displacements, ul-
ceration and inflammation, and the
result is less suffering and more children healthy at birth. For more
than thirty years

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth.
Note what Mrs. James Chester, of 427 W. 35th St., New York says in this
letter:—Dear Mrs. Pinkham:—I wish every expectant mother knew about
Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned
of its great value at this trying period of a woman's life urged me to try
it and I did so, and I cannot say enough in regard to the good it did me.
I recovered quickly and am in the best of health now.

Lydia E. Pinkham's Vegetable Compound is certainly a successful
remedy for the peculiar weaknesses and ailments of women.
It has cured almost every form of Female Complaints, Dragging Sensa-
tions, Weak Back, Falling and Displacements, Inflammation, Ulcera-
tions and Organic Diseases of Women and is invaluable in preparing for
Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women
Women suffering from any form of female weakness are invited to
write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

Of Two Continents

IT IS AMUSING to read the European comments on the \$500 Ford four-cylinder run-
about. Previous to its arrival there the trade papers were full of sarcastic com-
ments on the "Yankee Trick in Motor Cars;" "American Wild Cat Schemes," et-
cetera, etcetera.

BUT NOW—the same journals head their articles on the Ford Runabout "A Phenom-
enal Car," "The American Invasion a Real Peril," and similar captions. This car is list-
ed in London, England, at 152 pounds sterling—about \$750; and still it is the sensation
of the motoring world there. In Germany and France the home of the motor car, it sells
for a still higher price—and the demand is tremendous.

THE FULL SIGNIFICANCE of Henry Ford's sensational move when he announced a four-cyl-
inder, 18 H. P. Runabout to sell at \$500, has only recently become known to the trade and
buying public.

IT WAS SAID that at the price it could not be well made—would be too flimsy to withstand
rough usage on country roads—that its own power would be too great for it. Let's see: over
2000 of these runabouts have been delivered since August, 1906.

IN EVERY HILL CLIMBING CONTEST in which this wonderful car has been entered it has been
the sensation of the meet—flying up grades on the high gear that 40 and 50 H. P. cars lab-
ored up on second.

ON THE RACE TRACK stock cars of this Model have not only defeated but actually lapped
every other car in its class.

CROSS COUNTRY TOURS by private owners with new cars right out of the factory, ranging from
200 to 1200 miles, have been made "without touching a wrench to the car or removing a spark
plug."

BUILT FOR HARD SERVICE and rough usage, its lightness in its greatest strength—because
that lightness is obtained only by the use of the best materials procurable. It has strength,
power and speed to meet all demands under any possible conditions.

ENDURANCE—THE ORIGINAL demonstrating runabout—the car that made the rounds of every
show last year—has to its credit over 50,000 miles—demonstrating miles; it is still in service
and can hold its own with the last one that came from the factory.

SHIPMENT OF EIGHT CARS JUST ARRIVED. BUY NOW AS PRICES HAVE BEEN
RAISED BY THE FACTORY \$100, COMMENCING WITH SHIPMENTS AFTER
FEBRUARY 1st, 1907.
